Dear Judy,

Thanks for your support and encouragement on this journey. You rock! I hope you feel part of all our successes especially in Haiti. So far over 19 million bottles recycled, 1500 employed and behavior change for an entire nation. Most employed are women using the income to buy food and send kids to school so many other secondary impacts as well as improved ~~health~~ health. Wouldn't be here without you! My best to you for the holidays. - Bob
